

# PRESIDENT'S CUP

CYBERSECURITY COMPETITION

## PRESIDENT'S CUP RESOURCES

The President's Cup is not just a cybersecurity competition but an opportunity to expand on cyber training, skills, and education. Through various unique resources, anyone can gain additional practice to learn or refine specific cyber skillsets which contribute to the success of America's cyber workforce.

### PRACTICE AREA

The **President's Cup Practice Area** includes more than 170 past President's Cup challenges for federal employees to play. Engaging with these challenges allows users to gain valuable practice applicable to work roles, renew or enhance existing cyber skillsets, and test their knowledge. Registration is fast and easy, and participants will also receive a certificate upon challenge completion.

### GITHUB REPOSITORY

This **public site** offers descriptions, solution guides, virtual machine builds and other artifacts from challenges featured in previous President's Cup competitions. These materials are free and can be modified to suit the user's purpose.

### EXPO SITE & WORKSHOPS

The **Expo Site** makes previous President's Cup challenges available to audiences outside of the federal workforce. It is used to host free, hands-on workshops to expand cyber abilities and skillsets. During these hands-on experiences, participants are walked through the immersive cyber challenges. The workshops can be virtual or in-person (limited availability) and can be requested through [presidentscup@cisa.dhs.gov](mailto:presidentscup@cisa.dhs.gov).

### WALKTHROUGH VIDEOS

On CISA's **YouTube page**, viewers can watch walkthroughs of past President's Cup challenges and get a behind-the-scenes look at the unique problem-solving abilities that competitors need to apply to various challenges.
