Skilling Academy

The [Federal Cyber Defense Skilling Academy](#) is an intense, full-time, three-month accelerated training program for full-time federal employees to develop the baseline knowledge, skills, and abilities of various cybersecurity work roles. All courses are mapped to the [NICE Workforce Framework for Cybersecurity \(NICE Framework\)](#) and provide valuable opportunities to practice new skills in a lab environment.

All full-time federal employees in any job series and any grade or grade equivalent for non-General Schedule (GS) employees are eligible to apply to the Federal Cyber Defense Skilling Academy. Government contractors are not permitted to participate.

Timeline

Each Skilling Academy session runs 12 weeks and may include up to two week-long breaks. Accepted students are required to attend a mandatory New Student Orientation session the week prior to the start of a course. Supervisors are also highly encouraged to participate in the first hour of orientation and are welcome to stay for the entire duration.

During the three-month program, all students are required to participate virtually Monday through Friday from 8 a.m. to 5 p.m. ET, excluding federal holidays. Students cannot maintain their alternative work schedule during this time. Students return to their regular duty assignment during breaks unless the home agency has approved leave.
