

CISA GATEWAY DIGITAL LIBRARY

OVERVIEW

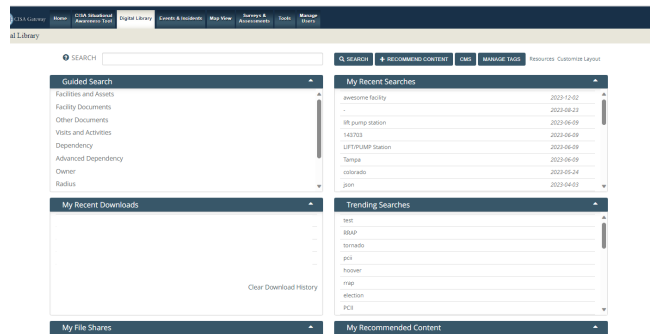

Our Nation’s critical infrastructure is essential to sustaining our security, the economy, and the American way of life. The Cybersecurity and Infrastructure Security Agency (CISA) leads the coordinated national effort to protect critical infrastructure from all hazards by managing risk and enhancing resilience through collaboration with the critical infrastructure community.

The Digital Library, located within the CISA Gateway, allows federal, state, local, tribal, and territorial agencies to access and share critical infrastructure resources and access security and resilience information in order to identify, analyze, and manage risk. Information available within the Digital Library comes from numerous digital sources and is available to CISA Gateway users in an easily searchable format, increasing the amount of data available to the community. This increased access to information enables users to enhance their critical infrastructure protection programs, prepare for and respond to incidents, and research and analyze infrastructure security and resilience data specific to their needs.

FEATURES

The Digital Library provides easily searchable information to help users find what they need. Highlights of the Digital Library include:

- A single interface connected to multiple sources of information, allowing easy access into a variety of infrastructure protection data and resources;
- Advanced and guided search capabilities;
- Intuitive information categories such as ‘Risk Mitigation,’ ‘Cyber and Information Security,’ and ‘Policy & Strategy Documents’ enable users to quickly find relevant information;
- Saved search history and smart links to trending information; and
- Ability for critical infrastructure protection community members to recommend information sources or content to be added to the Digital Library by uploading the document or entering the web address directly into the system.

RESOURCES

If you would like to learn how the CISA Gateway can support your organization’s homeland security efforts, to inquire about eligibility for accessing the CISA Gateway, or if you would like to establish access to the system, please contact the CISA Gateway Program Office at CISA-Gateway@mail.cisa.dhs.gov.

To learn more regarding the CISA Gateway, visit cisa.gov/cisa-gateway.
